Rounds Data - Copy and Paste to Right, then insert new name over duplicate. E.g in 2020 I added Davidson by copy/paste right from Ende on. Tour Leader-Bottom spreadsheet. Update this sheet so that the columns at the high end of the alphabet lost due to additions are restored. CY Tour \$ Alpha - Add the players, then update the formulas in cells E400:I422 or more. Unhide rows and columns to make sure new players are reflected. CY Tour Money Standings - Sort Data Automatically process - no macros - fix formulas A2:E24 plus in order to reflect new players CY Money By Club - add additional columns as needed by inserting before totals, via formulas. Clean up shading for host courses messed up by additions. PY Cum Money By Club - add additional columns as needed by inserting formulas before "z others", then copy/paste over to right to fix for additions. Add in past rounds and money history if applicable (year prior plus PAST history if any) Total Rounds by year - ditto above CY Rounds by Club - ditto above CY Cum Money By Club - add additional columns as needed by inserting formulas before "z others", via formulas Total \$ By Year - add additional columns and shift numbers over - copy/paste before zeroing out new people CY Avg. \$ / rd. by Club - ditto above This Takes A Lot of Work and Care Each Year - Needs to Be Reviewed By Commissioner after Updated by RJS
